

DR. GARFIELD RESIGNS; PEORIA DISTRICT MINERS REPUDIATE SETTLEMENT

Fuel Administrator's Resignation is in Hands of President Wilson—Retail Stores May Remain Open Nine Hours Today—8,000 Miners in Peoria Sub District No. 2 Dissatisfied With Indianapolis Agreement.

BULLETIN

PEORIA, Ill., Dec. 11.—Miners of Peoria Sub District No. 2, repudiated the Indianapolis agreement for settling the nationwide strike of miners, at a meeting held here tonight, according to a statement made by W. E. Sherwood, member of the Illinois state board of United Mine Workers of America. Eight thousand men are affected.

BULLETIN

WASHINGTON, Dec. 11.—Relaxation of restrictions on heating and lighting to permit retail stores to remain open nine hours on Saturdays was announced tonight by the railroad administration. This concession, it was said, was made to accommodate the heavy buying due to the near approach of the Christmas holiday season. On other days of the week the six hour regulation will continue.

BULLETIN

SPRINGFIELD, Ill., Dec. 11.—There will be a general resumption of mining in Illinois tomorrow but at a few mines some difficulty is expected. Frank Farrington, president of the Illinois Miners said tonight he expected practically all the men would report for work in the morning, and indicated that the state organization will take steps to bring any recalcitrant locals into line.

WASHINGTON, Dec. 11.—Fuel Administrator Garfield's resignation was tonight in the hands of President Wilson, given because he disagrees on principle with the coal strike settlement proposal arranged by the government and the mine workers union.

Dr. Garfield himself refused tonight to confirm, deny, or discuss the report, but at the White House it was said that a personal letter from him had been transmitted to the president late this afternoon.

Men close to the fuel administrator understand that he believes that the work of the commission authorized under the settlement to be made up of one coal mine operator, a coal miner, and a third person named to represent the public, will result in an increase in the price of coal to the consuming public. To this form of action Dr. Garfield has been unalterably opposed. It has been learned on good authority that he took no part in the negotiation with the mine worker's chief conferences the last week and that he informed and consulted after their initiation, the terms laid out as finally accepted contravene his conception of the main principal involved.

Suggested Commission
It was recalled in connection with Dr. Garfield's resignation that in suggesting a 14 per cent increase as fair for the miners and possible to be paid from present profits of mine owners. Dr. Garfield suggested a commission representative committee to review the conviction that such a body should not have power to fix prices. His belief is said to be that with this power granted a combination of the employer and employee in the industry to mulct the public by price raises is certain to result.

Whether the president will accept the resignation is not known. Members of the cabinet, are known to be supporting the settlement program as put through by Attorney General Palmer.

Mine operators authorized to represent practically the entire industry were still in Washington, awaiting an official notification of the settlement and basis. There was considerable doubt in opinion but no meetings were held to formulate definite decisions of policy, and none would be, it was said, until the government call came.

Only one minor change in coal saving orders came today from the railroad administration, allowing retail stores to remain open nine hours on Saturdays. The six-hour schedule will be maintained on other days.

Well informed officials hold the opinion that many of the restrictions now ordered will have to remain effective until about January 20, even should the miners go back at once in a body.

The war finance corporation was called into a decision today of methods of financing mines whose product is not promptly paid under existing systems of distribution, and which will not be able to continue operation without aid. Plans for granting relief were considered.

Urged to Return to Work.
Indianapolis, Ind., Dec. 11.—Members of the United Mine Workers of America are urged to return to work with the least possible delay in order that the public needs for coal may be promptly met in a circular prepared by the International officials of the organization this afternoon and which will be sent immediately to the four thousand local unions.

The circular was issued to supplement instructions sent out last night by wire and contains an explanation of the action of the general committee in voting to accept the president's proposal for settlement of the strike. Acting on the directions contained in

CAMPAIGN PLANS ARE DISCUSSED BY REPUBLICANS

National Association of State Chairmen Meet in Washington

TAKE NO ACTION

WASHINGTON, Dec. 11.—Plans for the 1920 campaign were discussed at a meeting today of the national association of Republican state chairmen at which many of the party's national leaders were present to give counsel organization and policies.

No formal action was taken but many problems common to all of the states were threshed over and plans were made to maintain throughout the campaign a well ordered connection between the various state organizations and the national committee.

The speakers included Will H. Hays, the national chairman; Frank H. Hitchcock, former national chairman; Senator Howard Sutherland of West Virginia; Mrs. Mary Garrett Hay of New York; Mrs. Margaret McCarter of Texas; William B. Thompson of New York and H. H. Motter, the Kansas state chairman.

The meeting which concluded the series of conferences which had brought several hundred Republican leaders here, was held while preliminary arrangements were in progress for the 1920 national convention which will be held in Chicago, June 8. The formal call for the convention was issued and those in charge of arrangements started the big task of allotting tickets and providing facilities.

One decision calculated to further close relations between the state and national organizations contemplates the reservation of places in the convention hall for all of the state chairmen, for the heads of the women's division in each state, and for two representatives, a man and a woman, from every state committee on ways and means.

The formal call sent out tonight by Chairman Hays lays down the new apportionment of state representation an announced yesterday, and provides that all delegates and alternates must be chosen "not earlier than thirty days after the date of this call and not later than thirty days before the date of meeting of such Republican convention unless otherwise provided by the laws of the state in which the election occurs."

A. T. Hart of Kentucky, head of the arrangements committee, said the committee probably would meet in Chicago early in January. He predicted that the convention would be the largest ever assembled by any party.

The partisans of various presidential possibilities were active among the assembled leaders and the last of them had left for their homes late tonight. Each of the managers in charge of these pre-convention campaigns wound up his canvass with a claim that his candidate had gained by the lucking of the last few days.

All the Illinois Republicans in congress at a meeting tonight, aligned in a statement presenting and endorsing Governor Lowden for the presidential nomination. Louis L. Emerson, secretary of state of Illinois and chairman of the Illinois Lowden committee, Speaker Shanahan, of the Illinois house of representatives, and Roy J. West, former national committeeman from Illinois also were present.

The state declared Governor Lowden was presented as a candidate because of his business and professional qualifications in private life and his record of loyal and successful performance of his duties in public affairs.

Briefly reviewing Gov. Lowden's war record and his work as governor, the statement concluded:

"We present Governor Lowden as in every relation of life worthy of the nomination and a guaranty at the head of the Republican ticket."

Making Reservations
Chicago, Dec. 11.—Selection of Chicago as the 1920 convention city by the Republican national committee in Washington yesterday led to much party activity today. Opening of organization headquarters and hundreds of telegrams calling for reservations of rooms for convention week were received at hotels.

Illinois headquarters were opened. Mayor William Hale Thompson, national committeeman for Illinois, established headquarters in the same hotel. Col. Frank L. Smith, of Dwight, Illinois, state chairman, will be in charge of Illinois headquarters.

HAITS NEGOTIATIONS
Pittsburgh, Kans., Dec. 11.—Negotiations between Governor Henry J. Allen of Kansas and representatives of United Mine Workers of Kansas for re-opening of the Kansas mines with union workers tomorrow was halted today by receipt of a telegram from Alexander Howat, district president, stating he would take charge of affairs upon his arrival tomorrow.

CAPTAIN CHARGED WITH BRUTALITY TO PRISONERS

NEW YORK, Dec. 11.—Captain Karl W. Detzer, charged with brutality to prisoners in France, on several occasions stood by with a pistol in one hand and a black-jack in the other while his sergeants "beat up" a man in his custody, according to testimony given today at his court martial on Governor's Island.

This testimony was given by Clarence H. Lacey of Indianapolis. The defense, however, forced an admission from him that he once had been convicted of "a crime" and that he had faced various charges while in the army.

Lacey testified that he had first met Detzer when he had come out of a cafe with Private Yates, now in a military prison, who it is expected, will be called tomorrow by the prosecution. He said Detzer had challenged them, that they lacked the passes but that Yates had pretended he was taking him to the provost marshal's office after having found him in the railroad yards where government property was lying in freight

cars. Lacey said Detzer ordered them to come along with him, but that after they had gone a short distance, Yates dropped his hand to his revolver and "told the captain to beat it." Detzer did, according to Lacey, and he and Yates fled, but were later re-arrested.

Lacey testified that on being brought before Detzer again he had received rough treatment from him and his two sergeants, U. S. Madden and Frank L. Hoyt. He asserted that once Detzer had ordered his sergeants to take him out, give him a chance to run and if he didn't, make him, then shoot and "waste no bullets."

The whole day was marked by sharp tilts between Lieut. Thomas W. Heffern, defense counsel and Major William Kelley, judge advocate, who raised objection after objection when his opponent sought to attack the credibility of government witnesses by inquiring into their records.

BERKMAN TO BE DEPORTED SOON

Will Be Sent to Soviet Russia—Goldman Granted Stay

WASHINGTON, Dec. 11.—The supreme court having refused to interfere with the government's plan to deport Alexander Berkman because of his anarchistic activities, immigration authorities tonight prepared to send the radical leader to soviet Russia. This is to be done, commissioner general of immigration Caminetti announced in the very near "future."

Simultaneously with its order in the Berkman case, the court granted a stay of one week to the carrying into effect of the plan to deport Emma Goldman, Berkman's assistant in radicalism, so as to enable it to examine the records and determine whether she is permitted to appeal from New York federal court decree proceedings instituted to prevent being sent out of the United States.

Both Berkman and Miss Goldman are being held at Ellis Island and under the court's order, the latter will not be permitted to obtain bail pending determination of the question as to whether she can appeal. Announcement was made by Harry Weinberger, attorney for Miss Goldman, after Chief Justice White had announced the court's refusal to grant, he would consult his client tomorrow as to whether she wished to push the proceedings further or submit to deportation.

While no statement was made by the court, it was understood its action in granting Miss Goldman a temporary writ from her contention that although born in Russia, she is an American citizen through marriage.

Application for permission to appeal both cases was made yesterday to Justice Brandeis, who referred the matter to the entire court. The stay in the deportation order which enabled the federal courts in New York to expel automatically the effect of the supreme court's order is to extend it for one week in so far as it affects Miss Goldman.

TWO KILLED WHEN FLOORS COLLAPSE

Second and Third Floors of Iowa Paper Company Plant at Cedar Rapids Cave In.

BULLETIN
CEDAR RAPIDS, Iowa, Dec. 11.—W. W. Chatterton, died of his injuries at St. Luke's hospital at 10:30 p. m. tonight.

Codey Rapids, Iowa, Dec. 11.—Two were killed and four injured, one perhaps fatally, when the third and second floors of the Iowa Paper Company collapsed here late this afternoon.

The dead are: George Bistline, laborer. Edgar Panel, negro laborer. The injured:

W. W. Chatterton, manager Iowa Paper Company, head crushed by internal injuries and broken leg.

Miss Martina Stick, stenographer, slightly injured. Harry Pitts, slightly injured. Charles J. Johnson, secretary Iowa Paper Company, badly injured.

Bistline and Panel were working on the third floor which, it was said, was greatly overladen with hundreds of tons of food packages and sacked feed and were ground to death in the collapse. The four injured were trapped on the first floor beneath the wreckage, and their screams were readily heard by passing pedestrians who called the fire department to their rescue.

Topoka, Kans., Dec. 11.—The annual official report on the 1919 wheat yield in Kansas, issued today by the state board of agriculture shows a production of 145,724,555 bushels of winter wheat and 913,737 bushels of spring wheat.

N. Y. CLUB SEEKS TO OUST JOHNSON

Action in Retaliation of So Called "Steam Roller" Tactics

NEW YORK, Dec. 11.—Retaliating for what it termed the "steam roller" tactics of Ban Johnson, president of the American league and the club owners supporting him, the New York club of the American League today started legal machinery in action to oust Johnson from the league presidency.

As a preliminary step, a telegram was despatched to Johnson in Chicago advising him that it regards his contract with the league as abrogated and forbids him to use league funds for compensation.

In an effort to prove that it was the Johnson faction which prevented a reconciliation, Colonel T. L. Huston, half owner of the Yankees and Harry Frazee, president of the Boston Americans tonight gave out the tentative agreement of compromise which they submitted to Frank Navin, president of the Detroit club at a meeting last Sunday afternoon.

The agreement in short asked for the following terms: A new board of directors to consist of two members from each faction, Comiskey of Chicago, Ruppert of New York, Mack of Philadelphia and Navin of Detroit.

President Johnson to have no vote as ex-officio member of the board of directors.

Navin to agree to absent himself from any meeting of the board of directors or of the league at the joint request of Ruppert, Frazee and Comiskey, thus defeating a quorum and making it impossible for either side to get the worst of it.

The entire league to attend the meeting called in New York on December tenth and to acknowledge the right of the directors to call such meeting. The meeting to be of a routine nature, at the close of which the eight club owners were to meet in an informal meeting of conciliation to thresh out the questions confronting the league and looking for a harmonious settlement. Johnson to attend such a meeting if he cared to.

All the rulings of the board of directors to be recognized by the league, the Mays case to be considered settled and dropped.

President Johnson accompanied by James Dunn of Cleveland left for Chicago this afternoon. Johnson had nothing to say.

CLOTHING PRICES TO CONTINUE UPWARD

CHICAGO, Dec. 11.—Clothing prices will continue upward next spring, Charles E. Wry, secretary of the national association of retail clothiers announced today, explaining steps taken by the association to assist Attorney General A. Mitchell Palmer in combating the high cost of wearing apparel.

The causes of high prices are beyond the control of the retail dealers, Wry declared, but members of the association are preparing to hold further price advances to the minimum at the sacrifice of their own profits, he said.

Suits which sold before the war at \$25 and now retail at \$50 will bring \$60 or more next spring, Wry said.

Demoralization of the industry, incident to the army demands for uniforms during the war, greatly increased labor costs and shortage of labor due to the decreased immigration are responsible, Wry maintained. Piece workers in Chicago added. Piece workers in Chicago are earning as high as \$135 weekly, he added. Wage increases since 1914 average 175 per cent, Wry said.

ELECTED PRESIDENT

New York, Dec. 11.—Carl R. Gray was elected president of the Union Pacific system companies at a meeting of the board of directors here today.

MEXICANS PLACE BLAME FOR DEATH UPON SLAIN MAN

Carranza Government Replies to Urgent U. S. Inquiry

SENTRY KILLS

WASHINGTON, Dec. 11.—Complete blame for the killing of James Wallace, an American citizen by a Mexican soldier two weeks ago near Tampico is placed upon Wallace himself by the Mexican government in its note replying to the urgent inquiry made by the United States.

The note which has been handed to the American Embassy in Mexico City was summarized in a dispatch received today at the state department.

The note, the summary indicates, amounts to a charge that Wallace while intoxicated passed a sentry and the American, failing to halt, was shot and killed. The note adds that the killing itself was made a matter of official record and that the arrest of the soldier and an investigation of the incident were ordered immediately by the Mexican authorities.

Officials at the state department withheld comment on this last interchange with the Carranza government, pending receipt of the full text of the communication, which is expected tomorrow.

After waiting expectantly for the reply to the last note in the case of William O. Jenkins, the American consular agent arrested and held in jail at Puebla, officials expressed considerable interest tonight in an Associated Press dispatch from Mexico City saying that semi-official information there was that the Mexican government would await decision of the supreme court in the senate before framing its reply.

While President Wilson had before him today the memorandum from Chairman Payne of the shipping board detailing the situation resulting from the interference by the Carranza government in the operation of American-owned oil properties in the Tampico district, there was nothing forthcoming from the white house as to whether a further action was planned by this government in answer to the notes already received but unanswered.

CHAMPAIGN DAILY GAZETTE IS SOLD

One of Oldest Papers in State Is Purchased By D. W. Stevick.

Champaign, Ill., Dec. 11.—The Champaign Daily Gazette, established in 1852, one of the oldest papers in the state, has been sold to D. W. Stevick, publisher of the Champaign Daily and Sunday News. The two papers will be merged and issued as one publication by Mr. Stevick.

The mounting cost of publication, the uncertainty of the print paper situation and the difficulty to secure the necessary funds for economical operation is said to have been a factor considered in the transfer of the property.

Mr. Stevick came to Champaign from Bloomington about five years ago and purchased the News from its founder and publisher, E. B. Chapin, and at once put into effect improvements and added equipment that caused the paper to take long strides in its field and he announces that he is formulating plans for greater improvement after the completion of the merger.

J. W. Lawder, former business manager and Orville L. Davis, former editor of the Gazette have not announced their plans for the future.

NOT ENTHUSIASTIC OVER WAGE AWARD

AURORA, Ill., Dec. 11.—Judge Evan Evans of the United States district court in Chicago to whom the application of Aurora, Elgin and Chicago electric railroad employees for increased wages was referred last summer by the men and their employers, today announced a decision by which the men get a 20 per cent raise over the pay they received in 1918 and one cent an hour additional for every five years a man has been in service. The raise, exclusive of the service bonus, amounts to about 24 cents to 4 cents an hour more than the men receive now, they having been granted a five cents an hour raise August 21 last, with the understanding that they were to receive a further increase if an investigation of their demands by Judge Evans warranted it. The latest raise dates back to Aug. 21, at which time the strike of the A. E. and C. men closed.

Some of the men who heard of the award of the men were not enthusiastic. They said a meeting was to be held tonight to talk it over.

SPENDS HOUR ON PORTICO

Washington, Dec. 11.—Despite a below freezing temperature, President Wilson spent an hour today on the south portico of the white house. He was wrapped in the big fur coat he wore at the peace conference.

MURDER CHARGE AGAINST VIRGO

LAWTON, Mich., Dec. 11.—A charge of murder was today entered against Joseph C. Virgo, a former "South Bend, Indiana, undertaker by authorities who are investigating the death of Maud Tabor.

According to Clem E. Warner, assistant prosecutor, the action was taken as a result of a secret grilling of Virgo and expect testimony before the inquest tending to show that crime had been committed.

Virgo who claims to have married the woman in 1915, refused to talk after learning he was charged with murder and accused the authorities of resorting to a ruse by leading him to believe he was held only as a material witness.

The inquest will not be resumed, it was announced, until Prosecutor H. H. Adams returns from California with Mrs. Sarah J. Tabor and Walter O. Tabor, mother and brother of the dead woman.

The authorities expect the mother's testimony to aid their investigation, inasmuch as she is said to have stated she was with her daughter when she died, the result, according to expert testimony, of induced parturition.

REFUSES TO OBEY SUBPOENA MANDATE

Russian Soviet "Ambassador Declines to Produce Documents

NEW YORK, Dec. 11.—Ludwig S. C. A. K. Martens, ambassador of the Russian soviet government today flatly refused to obey the mandate of the subpoena served on him by the legislative committee investigating seditious activities here. He declined to produce documents and papers received by him from his government or copies of his correspondence and reports to it.

Martens declined to answer questions concerning his dealings with Russia and stated point blank that he had sent his confidential files out of the jurisdiction of the New York legislative committee. They are still in the United States he added and he admitted that he could produce them if he so desired.

Assemblyman Martin told Martens he would be notified tomorrow what action the committee would take on his refusal to produce the papers subpoenaed and to answer questions.

The "ambassador" when asked to produce the papers read into the record a statement prepared for him by his lawyers, giving what purported to be his reasons for declining to deliver the required documents. Diplomatic immunity was the theme of the statement. He cited international law authorities and quoted from John Hay, secretary of state under President Roosevelt to view his contention that as representative of a de facto government regardless of recognition he was entitled to enjoy "diplomatic privileges."

He said he refused "on principle" to produce the papers sought and because he had no authority from his government to do so. Then, he added that there was "nothing to conceal" in his correspondence. He testified that as many as ten pieces of correspondence had been delivered to him by the different couriers from Russia, some of whose names he knew but refused to divulge.

Martens said that the soviet agency in Stockholm was in charge of a Mr. Strom, member of the Swedish parliament and that many couriers and mail between him and soviet Russia passed thru the Stockholm agency.

MAY REORGANIZE VARIOUS INTERESTS

Armour and Swift Have Reorganization Plans Under Consideration.

Chicago, Dec. 11.—Reorganization of the various interests of Armour and Co., Inc., a number of separate corporations have been under consideration, according to R. J. Dunham, vice-president of the company. Mr. Dunham declined to state whether the segregation of the properties was in accordance with orders from the attorney general's office in Washington.

Chicago financial circles have heard that some assurance has been given Armour that if these plans are carried out the government will feel that occasion for action against the company will disappear.

Swift and Co., has also been in division of its large business into smaller units, but whether the other large packers, contemplate similar action could not be ascertained.

HOLD FIRST OPEN DISCUSSION OF PEACE TREATY

At This Session of Congress During Debate of R. R. Bill

MUST RESUBMIT

WASHINGTON, Dec. 11.—The first open discussion of the peace treaty in the senate at this session of congress came today during the debate of the railroad bill. Senator Lodge and Senator Lenroot, Republicans, declared the treaty was "dead" until again submitted by the president and charged the Democrats with responsibility for the failure to ratify it at the special session.

Senator Underwood, Democrat of Alabama said the treaty could be called up at any time by a majority vote and in turn charged the Republicans with responsibility for the failure of the senate to act. The treaty debate lasted about an hour and ended with a statement by Senator Thomas, Democrat, Colorado, that "both sides having passed and re-passed the 'buck' it was time for the senate to return to real business."

The treaty was brought to the fore when Senator Underwood immediately demanded prompt passage of the railroad bill, charged the Republicans with failure to enact any substantial legislation, and cited defeat of the treaty as a Republican dereliction.

Senators Lodge and Lenroot promptly challenged the Alabama senator, asserting the Democrats are responsible for present situation on the treaty.

"The blame lies on the Democratic side and on the president," said Senator Lenroot, "fleeing the senate's procedure of November 19 and charging the 'propaganda' exists to hold the Republicans responsible for the present status. Before the vote on the Lodge resolution, Senator Lenroot said, the Republican 'repeatedly' asked Senator Hitchcock to suggest some counter proposition, but that none came nor yet has been presented."

"Until he does there is no way by which the treaty can be ratified," the Wisconsin senator added.

"The senator has been trying to put the blame for the who treaty situation on this side," Senator Underwood replied, "I can't do that. The country will never receive the argument. The treaty is lying on the vice-president's table and a majority of the senate can take it up at any time."

"The treaty is not before us," Senator Lodge interjected. "I would take on his refusal to produce the papers subpoenaed and to answer questions."

Denying Mr. Lodge's assertion, Senator Underwood said the opening disposed of was the proposed resolution of ratification and contended that the treaty itself is pending.

Senator Borah, declaring he viewed the treaty's "death" with extreme satisfaction entered in the debate to say:

"I trust sincerely that it is dead and that it will stay dead. It's about the best thing the senate has done in twenty years and if it had done nothing else I kill that treaty it would be entitled to gratification of the American people for all time to come."

Abandon Hope of Early Action
Washington, Dec. 11.—Hope of enacting railroad legislation in January has been dashed by President Wilson has announced the roads would be turned back to private control, virtually abandoned today by senate leaders.

Strong and unexpected opposition developed during consideration of the Cummins bill and was by a slim and narrow margin that its advocate defeated a motion to set it aside and take the sugar control measure.

In view of the short time remaining before the Christmas recess and the fact that the Cummins bill, if passed must be to conference with the Esch, publican and Democrat senators predicted that it would not be humanely possible to frame a bill by the end of the month even congress kept steadily and continuously at work.

The day's upturn was keenly felt.

The making of cider has become a very remunerative industry.

The Illinois Executive Committee of Community Service is rapidly enlisting the aid of city and school authorities in its "Americanization" or "Citizenship" activities which are based upon the striking success attained by this work among the foreign population in Chester, Pa. Community Service has had its most

thorough test in this Pennsylvania manufacturing center and has been uniformly successful in its activities.

Like spring shooting of ducks for a time the open season on booze varies in the different federal jurisdictions.

Government investigations show that all essentials should be cheaper, and prices continue to soar.

HABITS OF THRIFT.

The superintendent of the LaCrosse (Wis.) public schools has made a survey of the schools of that city showing how much money pupils spend for movies, candies and other amusements. High school pupils expended \$1,471.11 and grade pupils \$1,234.29 covering the period from Sept. 25 to Oct. 2, one week. It marked contrast is the statement that the termination of the war has not served to turn the solid citizens of France from habits of thrift or from investment in government securities. Figures show deposits in the French government savings banks increased 340,000,000 francs in 1918 and will set a record never before approached before the end of this year. At the beginning of 1919 the deposit balances of these savings totaled 3,550,000,000 francs.

JUSTICE FOR THE MINERS.

The return of miners to their

work and the probability of early resumption of business on a normal basis, has been the cause of great rejoicing throughout the country, but there is a question of justice to the miner that should now be investigated at the earliest possible moment. There is a growing feeling that they have been as much sinned against as sinning. It is proposed that the commission to investigate should issue quarterly reports and suggest readjustments in order to insure at all times and in all sections a living wage to the miners, reasonable profit to mine operators and fair prices to coal consumers. The same body would seek to systematize the production of coal and coke, give the miners steady employment so far as possible and remove their fundamental grievance—sporadic, uncertain, seasonal employment, with overwork at certain periods, and involuntary idleness at others. Now, if the 14 per cent increase in wages is actually inadequate, as the miners' representatives allege, the permanent body in question naturally would recommend an additional increase at the very first opportunity.

UP TO THE PEOPLE.

It is becoming increasingly evident to the observer who talks cognizance of affairs at the National Capital that the Democrats are getting ready to sidestep the challenge of the Republicans that the league of nations with reservations be made a campaign is-

sue in the elections next year. Senator Lodge hurled defiance into the Democratic ranks when he declared on the day the treaty was defeated, "I wish to carry these reservations into the campaign. * * * I want the people to see them, understand them and think of them in every household, on the farm, in every shop and factory throughout the land. Then let them decide." That put the proposition squarely up to the Democrats to accept or reject as they saw fit.

That they were thrown into confusion by the brilliant attitude of the Republicans has been clearly apparent by what has since transpired. Conferences have been held, and that scribe of the Administration, David Lawrence, after consulting Mr. Wilson regarding his suggestions, prepared an article, which clearly indicates the strategy that the Democrats have adopted in offsetting the effect of the Republican challenge.

The gist of the Lawrence story is that Mr. Lodge did not mean what he said when he gave his statement to the press. "Senator Lodge has been misunderstood," asserts Lawrence. "Not only is his statement to be regarded as an individual expression issued without consultation with Will Hays, * * * but the purpose he had in mind was not to close the door to compromise." Of course Mr. Lodge does not wish to "close the door to compromise," but the course that compromise may take will never, with his consent or that of the Republican Senators who voted with him, alter the Americanizing reservations which were made a part of the treaty before its rejection.

Those reservations were prepared with infinite care by the Foreign Relations Committee and received the closest scrutiny by the Republican majority of the Senate. They represent the ultimate point to which that majority will yield in its determination to protect American rights.

Rippling Rhymes
By Walt Mason

All the world is shot to pieces, men are roaring, days and nights, for a lot of boons and bulwarks, and some fifty kinds of rights; capital is swatting labor, labor's roundly hitting back, and our mills are standing idle, and our trains have jumped the track. All the struggling, fighting forces seem to glory in the wreck, while the Ultimate Consumer gets the cleaver in the neck. Oh, the Ultimate Consumer in the scrap has little part; he'd be happy just to labor in the office or the mart, and to feed his wife and kiddies, and to buy the rags they need, and provide against the future when he's old and gone to seed; but alas, the bricks are flying, and the scampers are on deck, and the Ultimate Consumer gets the cleaver in the neck. And the Ultimate Consumer has a sad and weary lot, for he's always bound to suffer where others do or not; others do the frantic talking of their grievances and ills, while the Ultimate Consumer goes ahead and pays the bills; it's a time of sound and fury and the madman knows no check, and the Ultimate Consumer gets the hatchet in the neck.

TO HOLD CONFERENCE

ON LIVING COSTS
As noted in the telegraph dispatches a conference has been called by Attorney General Palmer with reference to prices and living costs. This conference is to be held next Tuesday afternoon in the Red room at the LaSalle hotel. At that time the attorney general will outline the plans which the department of justice has for bringing about reduction in living costs.

Mayor E. E. Crabtree and State's Attorney Carl E. Robinson of this city have been invited to the conference, along with similar officials in other cities throughout the country. Gov. Frank Lowden and A. A. Sprague, fair price commissioner for Chicago, have joined in a letter issued from Springfield calling the attention of mayors, district and state's attorneys to the conference and requesting them to attend.

NAZIMOVA
The Incomparable in
"THE BRAT"

Her Latest and Greatest Production
Adapted from Maude Fulton's sensational stage success. Presented in 7 bubbling acts. Where devotion in rags shames jealousy in silks. In the charity homes, in the chorus, and in the dark haunts of the city's slums—people called her "THE BRAT". She never knew any other name. One night an author found her among the drab derelicts of a Police Court. He took her home and she met his fiancée. Then!

One of the chief charms of Nazimova is her amazing originality. She is an exponent of the bizarre. She detests the commonplace, and her superb artistic equipment enables her to venture daringly where another less wonderfully equipped actress would fail.

HOLD FIRST OPEN DISCUSSION OF PEACE TREATY

(Continued from Page One.)
disappointing to friends of the Cummins bill which would have been passed Monday, with less than a score of senators voting, except for a demand by Senator LaFollette, for a quorum. On an aye and nay vote the bill was passed and Vice-President Marshall was ready to announce the result when the obvious absence of a quorum upset the whole proceeding and re-opened discussion, still pending.

During an address today in which he made a sharp demand for immediate action, Senator Underwood of Alabama, took notice of widely circulated rumors that the president would not return the roads to their owners on January 1. Senator Underwood frankly announced that he did not know what President Wilson intended to do.

"But," he added, "the president has said that he would turn them back the first of the year, and it has been my observation that when he said he'd do a thing, he did it."

LaFollette Continues Attack.
The principal attack on the bill was made by Senator LaFollette, who already had spoken two full days and who has not yet approached the end of his long address. After he had been speaking for two hours, Senator LaFollette temporarily yielded the floor to Senator McKellar of Tennessee.

In the long snarl in which the senate found itself while trying to decide whether to continue with the railroad bill or take up the sugar bill, the lack of interest in passing railroad legislation was bitterly attacked from both sides of the chamber. Almost an hour was lost today in quorum calls which Senator Smoot, Republican, Utah, denounced as inexcusable with a vitally important question before congress. But in the two hour wrangle—not on the sugar bill itself, but the question of taking it up—republicans and democrats had on their fighting clothes, with the discussion running far afield.

In his argument against the bill, Senator LaFollette declared its enactment would add to the cost of living because an increase in freight rates would come with the end of government control, which, he insisted, had been eminently successful.

Senator McKellar's objection to the Cummins bill was that it would take a part of the earnings from a road properly managed and rendering efficient service and give it to a road poorly managed, and of little use to the public.

There was a suggestion from a number of senators after adjournment tonight that it might be necessary to defer the Christmas recess. It also was suggested that the senate endeavor to obtain from the president a statement as to his plans for the turning back of the roads, in view of his silence on this question since his message to the extraordinary session of congress last May.

HARVARD TO PLAY AT PASADENA, CAL.

CAMBRIDGE, Mass., Dec. 11.—The Harvard University football team will play a western eleven at Pasadena, Calif., New Year's day. The committee on athletics at Harvard today voted to recall its refusal of an invitation from the Carnival of Roses committee at Pasadena, in view of the improved coal situation. The Crimson eleven began practice yesterday.

Oregon U. Team Selected.
Los Angeles, Dec. 11.—The University of Oregon team has been selected by the Tournament of Roses association to meet the Harvard football team at Pasadena, New Year's day.

WERE NOT INTENDED AS CRITICISM OF SERVICE

Lieut. Maynard Admits Making Two Plausible Mistakes in Statement.

New York, Dec. 11.—In a statement issued tonight just before his departure for Washington to appear tomorrow before General Charles T. Menoher, director of air service, Lieut. Belvin W. Maynard asserted that extracts of his statement given to the Anti-Saloon League, were not intended as criticism of the air service. He said he made two plausible mistakes, one when he referred to the trans-continental race and the other when he referred to his own sobriety.

He declared it would be emulative to him to give specific instances as to prove his contention and he could not afford to do it.

"Apparently extracts from the statement I gave the Anti-Saloon League after its repeated requests regarding the effects of the use of alcoholic beverages in the air service have stirred up a commotion in aviation circles," the statement said. "My purpose was to give an honest, straight-forward opinion based on my personal observation of its effects on pilots. These extracts do not convey this opinion."

"My purpose was not to criticize the air service which in my opinion is made up of choicest young men who are noted for their sobriety. Our fliers are not 'booze artists' and our planes are not floating saloons. I commend our air service to every young man as what I believe to be the most attractive and congenial corps of our army for young men."

"Notwithstanding there are a few in every other vocation who are not so discreet. From my observation of those few, I have drawn my conclusions."

BILL WOULD REACH MANY I. W. W. MEMBERS

WASHINGTON, Dec. 11.—Extension and exclusion of deportation laws to aliens affiliated with any organization which writes, prints or distributes matter advocating the overthrow of the government by violence, sabotage, and assassination of public officials was proposed in a bill introduced in the house today.

It would reach all alien members of the Industrial Workers of the World and like organizations, while mere membership under present law does not constitute ground for deportation.

STONES ON TOMB OF GERMAN MONARCHY

Berlin, Dec. 11.—Commenting on a four volume compilation of documentary pre-war history, the Vorwaerts says: "who ever reads the former emperor's marginal remarks, will have no doubt that Germany before the war was ruled by next to a mad man."

The newspaper characterizes the books as "four stones on the tomb of German monarchy."

APPOINTED DIRECTOR OF WOMEN'S BRANCH

CHICAGO, Dec. 11.—Miss Elizabeth Allen today was appointed Major A. A. Sprague, head of the Illinois fair price commission, as director of the woman's branch of the organization. Mrs. Maude Turley, also of Chicago, was named executive secretary.

They will try to educate the women of the state in the most economical methods of buying and using foodstuffs.

Sub-chairmen will be named in each of the seven food districts of Illinois Major Sprague stated.

DR. GAFIELD RESIGNS, PEORIA DISTRICT MINERS REPUDIATE SETTLEMENT

(Continued from Page 1)

advanced pending final settlement by a commission.

The miners are asked to trust their chosen representatives and to "wait patiently the vindication of their judgment and action" which, it is predicted will ultimately come.

The statement points out that all the circumstances of the officials' action and the reason for it cannot be explained in a circular and that for this reason a general convention of the organization will be called after full resumption of work. The officials express confidence that when the course adopted is explained at the convention, universal approval will be given by the representatives of the four thousand locals.

The circular is signed by Acting President Lewis, Secretary-Treasurer William Green and by the district presidents of the organization.

ANNUAL MEETING TO BE HELD IN CHICAGO

CHICAGO, Dec. 11.—Calls for the annual meeting of the Western Golf Association to be held in Chicago on January 17 were sent out tonight by Secretary James H. Barnard. The meeting will elect officers and award the championships for 1920.

A ticket headed by Wilbur Brooke of Cleveland for president to succeed Charles E. Thomson, who found it impossible to serve a fourth term is expected to be elected as there is no opposition.

While the amateur championship is expected to go to the Skokie Club of Chicago, invitations have been received from the Town and Country club of St. Paul and one or two other links. The open contest may go to the Olympia Fields Club of Chicago, which has two eighteen hole links. It would relieve the congestion of this 72 hole medal event.

RECRUITING ORDERS

Washington, Dec. 11.—Orders issued today to recruiting officers extended to marine reservists the privilege of resigning to enlist in the regular army. A similar order will be issued by the marine corps permitting members of the army reserve to join the marine corps.

EFFORT TO GET ACTION ON SUGAR BILL FAILS

WASHINGTON, Dec. 11.—Another effort to hasten action on the bill continuing federal control of sugar next year failed today, the senate defeating a motion to lay aside the railroad bill temporarily.

Senator McNary announced that he would try to call his measure tomorrow.

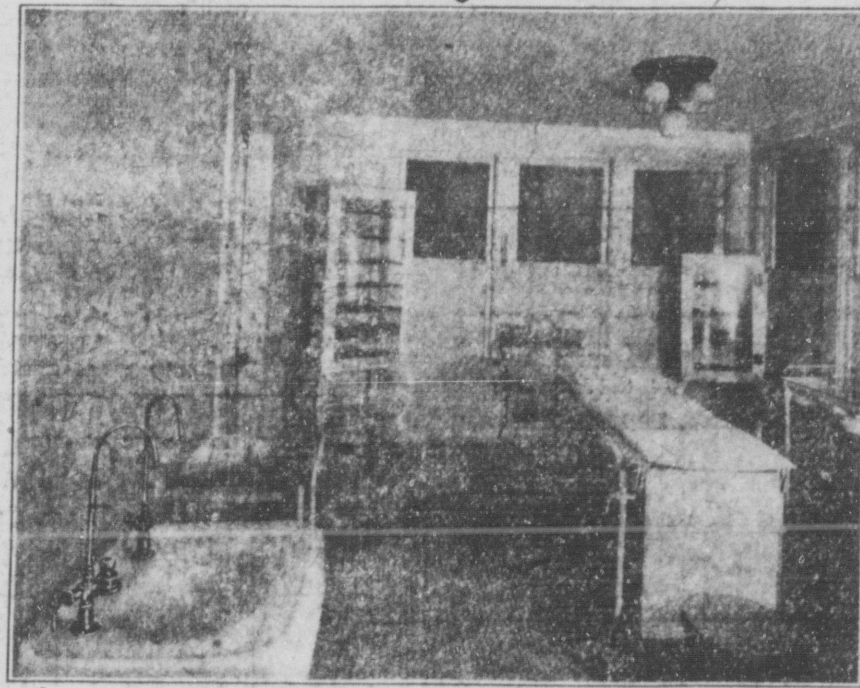

There was no partisan alignment on the vote of 27 to 32 by

which Senator McNary's motion was defeated. Advocates of sugar legislation conceded importance of the railroad bill but contended that immediate action was necessary to relieve the sugar shortage. Senator McNary declared the bill could be passed in two hours, but disposition of his motion led to debate on many subjects extending over more than that period. Fourteen Republicans and thirteen Democrats supported Mr. McNary in seeking immediate consideration of the sugar bill while sixteen Democrats and sixteen Republicans voted to hold the railroad bill before the senate.

Why Go to Surgical Hospital?

Sensible Conclusion—

If your eye fails—you go to an oculist. If you have appendicitis—you call a surgeon—because they know best and can give you the best results. Likewise a surgical hospital is especially fitted and equipped for surgical work.

A Partial Record of This Hospital—

Out of 2710 cases only 24 deaths—less than one per hundred. Out of one hundred and eighty-six consecutive operations for appendicitis alone—only one death.

Deaths

McGinnis.
Michael McGinnis has received
word of the death of his cousin,
Daniel McGinnis, who passed
away at New Berlin yesterday
morning. Deceased was about 63
years of age and leaves a family.

Drake.

Z. T. Drake passed away yes-
terday morning at the Norbury
Sanitarium where he was taken
recently for treatment. He was
born in Miamisburg, Ohio, March
4, 1849 and lived at Elkhart, Ill.,
where he followed the occupation
of farming for a number of years.
He was a son of Charles and Lucy
E. Drake and leaves a wife, a son
and a daughter; also a sister,
Mrs. Charles Clampt of Ebenezer
neighborhood and two brothers,
Charles W. Drake of New Haven,
Conn., and S. H. Drake of Will-
iamsville, Ill. The first named
brother is now 88 years of age
and still quite active. He has
been an instructor in languages
for years. Mrs. Clampt says he
had been a Congregational min-
ister and thought he was a class-
mate of some Congregational min-
ister in Jacksonville but couldn't
be sure who it was.

MRS. E. M. COE'S FATHER DIES IN CHICAGO

Thomas Macfarlane Passed Away After Years of Invalidism—Prominent for Years in Live-stock Association Work.

Mrs. Ellison M. Coe left last night for Chicago, where she was summoned on account of the death of her father, Thomas Macfarlane. His death occurred Wednesday night following a long illness. Mr. Macfarlane was born Sept. 22, 1835 at York Mills in New York state. When he was a young man the family removed to Providence, Rhode Island, and there remained until 1881.

For a considerable period Mr. Macfarlane was superintendent for the Brown & Sharpe Mfg. Co., and left his important post with that company because a change in health condition made outdoor employment advisable. The family home was then changed to a farm near Iowa City, Iowa. In addition to his active farming operations Mr. Macfarlane became secretary of the Aberdeen Angus Breeders Association. While he was serving in that capacity the family moved to Chicago and that has been the place of residence ever since.

A few years ago a break down in health caused his resignation and his life has been spent quietly in the latter years thru a period of invalidism.

Mr. Macfarlane for the greater part of his life was identified with the Congregational church and ever maintained a deep and abiding interest in religious affairs. He was heartily in sympathy with the church unity movement and for a number of years prior to his death was identified with the Kenwood Evangelical church, which represents the united religious effort of the Kenwood community.

Mr. Macfarlane is survived by seven children: Mrs. Ellison M. Coe of this city; Mrs. Sarah M. Meardon, Washington; Misses Elizabeth and Mary at home; Dr. George B. Macfarlane, Chicago; Charles F., New York City, and Edward B., in California. There are three grandchildren: George Coe of this city and Misses Anna and Ellison Macfarlane of California.

Mr. Macfarlane was a man of wide learning and in the strength of his character was true to the rugged virtues of his Scotch ancestry.

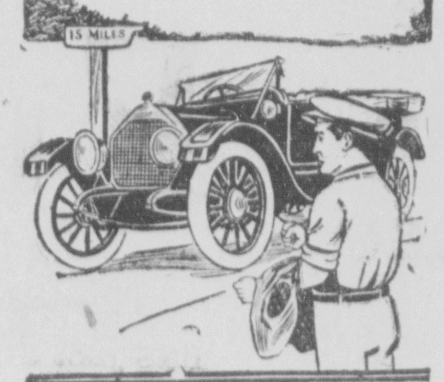

We find we have a number of small size overcoats for men at \$10, 12.50 and \$15. These are last year's coats at last year's prices. If you can use a small overcoat get your size today at TOMLINSON'S.

FARM PROPERTY

(a) Near Murrayville we are offering eighty acres of good farming land, well fenced and with a full set of improvements. Including six room house, two barns, garage, hog house, implement shed and other buildings. Sixty-five acres of wheat. This is a nice farm home and close to town, looks like a bargain at \$250 per acre.

(b) Three miles from a good town on the Q and one mile from another shipping point in Sangamon county we offer 240 acres of black prairie with two full sets of improvements, including houses, barns, silos, scales etc. Possession March first. Price \$260.00 per acre.

(c) Southeast of the city we offer 160 acres, timber soil, with some good bottom land and nearly all in grass. Six room house, cellar, cistern, pump and sink inside, concrete walks, good wells and springs. Barn for eight horses, with feeder shed 18x40. Other buildings for stock and implements. Price \$85.00 per acre.

(d) 305 acres, two and one half miles from shipping point, mostly level farming land. Seven room house, fair barn and other buildings. Price \$27,000 and will leave a good loan on the place.

(e) 260 acres, sixty minutes drive southeast of the city, 160 acres of level farming land, balance rolling to rough with some timber. Seven room house, large horse barn, stock scales and other useful buildings. Well fenced and well watered. Price \$140.00 per acre.

(f) Near the city we offer 120 acres of prime farming land, with an eight room house, barn, scales and other buildings. Possession March first. Price \$400 per acre, will leave 60 per cent of money in farm.

MONEY

We have orders this week for \$20,000 to be used March first. It is wise to speak in time. There is plenty of money for all but it can not all be arranged for and had March first. You must give us some time or you may be disappointed.

League of Nations. A committee
consisting of the editors of the
student papers and Columbia,
Princeton, Yale and Harvard has
started the plan with the endorse-
ment of Presidents Lowell of
Harvard, Hibben of Princeton,
Hadley of Yale and Butler of Col-
umbia. President Rammelkamp
of Illinois College received a tele-
gram from this committee which
was read to the students and fac-
ulty at the chapel exercises Thurs-
day morning. Assurance is given
that the members of the commit-
tee represent both sides of the
question and that no propaganda
will be used in favor of either one
side or the other, but that a sin-
cere effort will be made to ob-
tain the sentiment of the college
students and faculties of the
United States on the great ques-
tion before the president and sen-
ate. The vote will be taken in
the colleges of the country on
Tuesday, January 13. It is ex-
pected that between the present
and that date there will be con-
siderable discussion of the sub-
ject in college circles; perhaps
some public debates and mass
meetings will be held at which
the different points of view will be
presented. The exact ballot to
be voted has been submitted to
Senators Lodge and Hitchcock
in an effort to obtain their ap-
proval of its method of statement.
Both senators have been invited
to make a direct statement to the
colleges of the country summariz-
ing their points of view.

By action of President Rammel-
kamp and Edward Tomlinson,
the chairman of the Student As-
sociation, a committee of student
and faculty members has been ap-
pointed to arrange for the discus-
sion and to conduct the ballot at
the local college. The telegram
states among other things: "The
plan is solely to stimulate discus-
sion in academic communities and
to obtain as accurately as pos-
sible an expression of college sen-
timent." It is hoped that the
educational results of this effort
will be very great and that the
indication of sentiment thus ob-
tained will be enlightening to ev-
erybody concerned. The chairman
of the advisory committee, having
the whole matter in charge, is
President Hadley of Yale.

CIRCUIT COURT IN
SESSION THURSDAY

Suit of William Rook Against the
Chicago & Alton Road—Court
Orders.

Most of the time of Judge
Smith in the circuit court yester-
day was taken up in hearing the
suit of William Rook against the
Chicago & Alton railroad. The
complainant brought suit on the
charge that losses were incurred
on a shipment of cattle because
of the failure of the railroad to
properly care for the cattle while
in transit.

The claim made was for \$433
and the jury brought in a verdict
awarding damages in the sum of
\$200. W. T. Wilson appeared
for the railroad and J. O. Priest
for the complainant.

In the partition proceeding of
Fred G. Tholen vs. Rosa Engel-
brecht et al., report of commis-
sioners was approved.

In the suit of John W. Smith
vs. Anne Swan, alias Anne
Smith, the resignation of W. H.
Dieterich, guardian ad litem, was
approved and W. T. Wilson was
appointed.

In the foreclosure proceedings
of A. W. Bambrick vs. A. W.
Kellogg, et al., the report filed by
the trustee, T. C. MacVicar, was
approved and opportunity given
for the filing of objections.

Judge Smith at a night session
and without a jury heard evi-
dence in the suit of the Powers-
Begg Co. against the C. B. & Q.
railroad. Damages are asked on
a certain stock shipment.

MAY BUILD RAIL
ROAD SWITCH NOW

Council Plans to Take Advantage
of Present Opportunity—Track
at South Plant Will Save
Money.

The city council is making
definite plans for the early build-
ing of the filtration plant and the
consolidated water and light
plant south of the city. It is very
likely that contract will be made
at once for the grading work in
connection with the building of
the railroad switch, which will
extend from the Chicago & Al-
ton to the new plant. It will be
necessary, according to a survey
made by H. L. Caldwell, to re-
move about 4,000 cubic yards of
dirt in providing for this switch.
The work is of such a kind that
a steam shovel is needed, that is,
if the job is done in an economical
way.

Steam Shovel Here Now.
Mr. Myers, who has done the
excavating work on the reservoir
and on the vandilla road, is
about to take his equipment to
another point. The water and
light committee of the council,
which includes Aldermen Chapin,
Moore and Williamson, believe
that it would be a wise thing to
have the work done while the
steam shovel is available. If a
satisfactory price can be secured
from Mr. Myers, the contract will
probably be let to him at once.
There was some doubt yesterday
as to whether the city is in legal
condition to enter into such a
contract until after the first of
January. To meet this condition
Mayor Crabtree and members of
the committee arranged for a
meeting of a small group of busi-
ness men late Thursday after-
noon in one of the basement
rooms at the Ayers National bank.
When the situation was ex-
plained, the men present readily
agreed to subscribe for a fund to
pay for the proposed work if it
was found that the city cannot do
so legally before January 1. This
would be simply a guarantee fund
and the citizens putting up the
money would be repaid by the
city a little later on. There were
eight or ten men present and
while they were willing to sub-
scribe for the fund they were also
certain that fifty or more other
subscribers could be readily
secured.

Will Save Money.
A railroad switch while intend-
ed particularly for the haulage of
coal when the consolidated plant
is completed, would be of decided
benefit in the construction of the
filtration plant and of the power
plant. A switch running right
under the grounds will eliminate
some expensive hauls of equip-
ment and materials, so that if the
improvement is put in before the
construction work begins, hun-
dreds of dollars can be saved for
the city. Aside from this fact,
contract probably can be made
now at a less figure than would
be true if the contractor had to
include the cost of bringing in
heavy equipment.

As is generally understood, it
is part of the light and power
plant plan to have the coal deliv-
ered in drop bottom cars to the
plant, thus eliminating the ex-
pense of wagon haulage. It would
also mean that the coal can be
purchased direct from the mines
instead of thru retail dealers and
a further saving made. The con-
solidated light and water plant
will probably consume an aver-
age of 8,000 tons of coal in a year
and the savings possible thru
switching the coal direct to the
plant will amount to \$5,000 or
\$6,000 per year.

A GREAT RELIGIOUS
MOVEMENT

A. C. Metcalf and Rev. J. O.
Kirkpatrick were in Springfield
yesterday attending the sessions
of the state training conference of
the Inter-Church world move-
ment. This is a mighty effort to
combine all evangelical churches
in one grand movement to take
the gospel where it is needed and
to work in harmony, avoiding over-
lapping and accomplishing as a
united body what should not be
done by one denomination alone.
The sessions began Wednesday
and will close today. Some idea
of the great scope of work and
aim may be gathered from some
of the themes named for discus-
sion. They are, The Hour of
Christian Opportunity, Signifi-
cance of the Movement, World
Needs in the Light of Today, So-
cial Unrest and its Implication for
the Church, Some Paramount
National Questions, The Social
Vice, Free Speech and National
Loyalty, Christian Americaniza-
tion, Literature of the Movement,
Ultimate World Need in Terms of
Jesus Christ, The Objectives and
Goals of Americanism, Protest-
antism, Christianizing the Com-
munity, Hospitals and Homes, The
Enthronement of Christ in the
Home Life of America, The Dy-
namics Without Which the Me-
chanics are Dead, The World
outlook, Adequate support for
Trained Leadership, The Foreign
Survey, World Need and the
Church's Opportunity.

These and many others occu-
pied the time of the gathering
which assembled some eminent
men in the religious world. So
far the time has been spent large-
ly in the abstract but the concrete
will doubtless appear in due sea-
son.

While there Mr. Metcalf met
Rev. F. B. Madden and Rev. W.
R. Leslie. Dr. W. B. Spooner ex-
pected to go up today.

NOTICE

The volume of news mat-
ter appearing in the Journal
this morning is many col-
umns below normal because
of the failure of the gas
service.

For a number of days
there has been some equip-
ment trouble at the gas
plant and further the supply
is very low because of gas
coal shortage.

Gas is necessary to heat
the metal pots in the opera-
tion of linotype machines.
The four machines used in
the Journal composing room
were not in full operation un-
til after 10 o'clock last
night. Supt. Gray has given
assurance of improved serv-

WINCHESTER

Winchester, Dec. 11.—Funeral
services for Mrs. Mary Burns
were held at St. Mark's Catholic
church Wednesday morning at
nine o'clock. Rev. Father C. S.
Bell officiating. In spite of the
low temperature prevailing there
was a large number of relatives
and friends present to pay a last
tribute of respect to the deceased.
The many beautiful flowers were
cared for by Misses Della and Au-
drey Ring and Mary Hawk. The
pall bearers were: Dave and
Robert Hawk, Samuel Hoover,
John Welch, T. B. Lyons, and
William Ring. Interment was
made at the Catholic cemetery.

Mrs. Clarkson Dies

The death of Mrs. Elizabeth
Clarkson of Pleasant Plains oc-
curred at the home of her daugh-
ter Mrs. William Evans at six
o'clock Wednesday morning after
an illness of several weeks' du-
ration. Mrs. Clarkson returned
to Winchester several weeks ago
with her daughter from Pleasant
Plains and has been growing
weaker in strength. Mrs. Clark-
son and family formerly resided
in Winchester. The funeral ser-
vices were held Thursday after-
noon at three o'clock from the
Evans residence in charge of El-
der J. H. Coates. Music for the
occasion was furnished by Misses
Wells, Wilson and McClure. The
pall bearers were: Joseph Mont-
gomery, T. Brown, Chris Munze,
Thomas Kirkman, Edward Pieper,
and John Dugan. Interment was
made at the Winchester cemetery.
News Notes.

Rev. and Mrs. C. W. Evans
have moved their household goods
to Sheldon, Ill. Rev. Evans will
preach his farewell sermon at
the Christian church here next
Sunday morning.

Miss Catherine Clark has ar-
rived home from the University
of Illinois for the holidays. The
institution closed earlier than
usual this year on account of the
fuel shortage.

Miss Frances Peak returned
Thursday from the University of
Illinois to spend the holidays
with home folks.

Mrs. Emma Cohagen has re-
turned home after several weeks
stay near Hillview.

Mrs. J. Tadlock and Mrs.
George Bowman of Alsey were
visitors in Winchester Thursday.
The many friends of Irwin
Coultas will be glad to learn that
he is steadily improving in health
after an illness of almost four
weeks.

Arthur, Oscar and Samuel
Johnson of Litterberry were busi-
ness callers in Jacksonville and

ILLINOIS MOTHERS Prepare for Trouble

When a girl becomes a woman, who a woman becomes a mother, and when a woman passes through the changes of middle life are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe colds and influenza.

Dr. Pierce's Favorite Prescription is a non-alcoholic remedy that any woman can safely take because it is prepared from roots and herbs containing no toxic properties of the most pronounced character. It is not a secret remedy because its ingredients are printed on the wrapper.

Quincy, Ill.: "I was suffering in a very severe case of cold and influenza, with displacement, and was so weakened and nervous that I could do no housework when I commenced to take Dr. Pierce's Favorite Prescription. Golden Medical Discovery and Pleasant Pellets. For one whole summer I took a complete course of treatment with these medicines, exactly following instructions on wrapper around the bottles) and from a miserable and afflicted woman I was transformed into a new being, full of health and strength with no sign of inward trouble whatever. I feel most grateful for what Dr. Pierce's medicines have done for me. I am pleased in telling others about it."

Mrs. Anna Littleton, 416 Vine St., East St. Louis, Ill.: "Dr. Pierce's Golden Medical Discovery has been used by our family for three generations. My grandmother used it. Mother used it for a run-down condition and cough and it strengthened her and built her up. I have used it myself after having a grippe and found it a true builder."

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passages and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

MS. LANSING IN REVOLT

Wife of the Secretary of State Breaks Capital Precedent—First Cabinet Woman to Refuse to Return all Social Calls Made on Her During the Season—Just a Mathematical Problem.

From the Chicago Tribune. Washington—Mrs. Robert Lansing, wife of the Secretary of State, has laid the knife at the root of the oldest and for many years the most meaningless of Washington's social laws by refusing longer to recognize the necessity of returning all calls made on her during the season. No Cabinet woman has ever thought of claiming the right to an 8-hour day, but Mrs. Lansing has taken the lead in a strike against the custom of spending hours several days per week in driving from door to door to leave her cards for every woman in official or resident society who on Wednesday "at home" has left a card for her. The wife of the President never returns calls and the Vice-President's wife enjoys a certain latitude in the matter, but the wives of Cabinet members have endeavored to return all their calls, leaving their cards in person or sending their secretaries if they have a social secretary, as the majority of them do not, to discharge the duty for them.

Problem One of Mathematics. It is in no unusual spirit that Mrs. Lansing has arrived at her decision. The problem is one in simple mathematics. Without counting the cabinet, the supreme court, the diplomatic corps, representing forty-two countries, and the groups of distinguished foreigners who visit Washington on special missions or as members of international conferences and congresses from time to time, there are permanently in Washington ninety-six senators, 135 members of Congress, and the members of thirty-nine commissions, boards and bureaus, from the Smithsonian institution to the Columbia Institution for the Deaf, to say nothing of the division and bureau chiefs and other officials within each department, the ladies of whose families call at least once each season, with or without their husbands, on the wife of every member of the Cabinet. There are also of course, to be reckoned with, in addition to the official group, the members of resident unofficial society.

Congressional Calls, 500. The real problem, however, is the matter of congressional calls. The wife of a member of Congress can discharge her social duty to the Cabinet in nine calls, but a Cabinet woman must pay more than five hundred if she makes but one call during the season on each senatorial and congressional household.

In her revolt against a precedent established when the capital was young and official society counted its membership in hundreds rather than in thousands, Mrs. Lansing is gladly supported by Mrs. Lane, wife of the Secretary of the Interior, and Mrs. Houston, wife of the Secretary of Agriculture.

The women of Trinity Episcopal church will hold a Christmas apron sale on Saturday, Dec. 13th at the Rectory. Sale opens at 10:30 o'clock. A special feature will be an afternoon tea. Friends of the church are cordially invited to be present.

THE NEWSPAPER OF TOMORROW

Tickers Would Replace Presses Under Plans Visualized by Press Builder.

The newspaper office of the future—one without presses, typesetting machines, casting boxes, or other costly and complicated machines used today in newspaper production—such is the office visualized by Oscar Roosen, vice president of R. Hoe & Co., press builders. In a letter to the Brooklyn Eagle recently, Mr. Roosen gives his idea of the possibility of the newspaper office of tomorrow.

"No press room," he writes, "but a large room filled with telegraph instruments and operators, each instrument connected with thousands of wires forming a cable running underground to the houses of all subscribers, a bulletin board in the home of every subscriber with a stock ticker or printing arrangement connected by a wire with the main instrument in the publication office."

"When any news was ready and the copy was given to the telegraph operator it would be flashed over the wires, possibly one instrument printing through twenty thousand subscribers, on the order of the telephone system, all the news as fast as it comes in. "Before the subscriber goes to bed he puts in a fresh sheet of paper and while he sleeps the news is printed on the sheet and read at his breakfast."

HE LEADS A "DOUBLE" LIFE From New York Evening World. A pretty young girl Red Cross roll call worker buttonholed a widely known business man in Upper Broadway the other day and asked him to pay \$50 for a life membership.

"I already have a life membership," he replied somewhat gruffly.

"Then lead a double life," retorted the girl.

"Gets-It" Peels Off Corns Painlessly

Off They Come Like Banana Skin. 2 or 3 Drops, That's All.

There's a murderous, painful way to get rid of corns, and then there is the peaceful, glorious "gets-it-off" "Gets-it" way. After you have tried "Gets-it" you will say "never

Cut it! Quit it! "Gets-it" Peels It! again" to all other methods. This is because "Gets-it" is the only corn-remover on earth that makes corns peel off just like a banana skin. Two or three drops will do the work, without fussing or trouble. You apply it in 2 or 3 seconds. It dries immediately. "Gets-it" does the rest, without bandages, plasters, blood-bringing knives or razors. Get rid of that corn-pain at once, so that you can work and play without corn torture. Be sure to use "Gets-it." It never fails. "Gets-it" the only sure, guaranteed, money-back corn-remover costs but a trifle at any drug store. Mfgd by E. Lawrence & Co., Chicago, Ill. XMAS MONEY

For Boys and Girls

\$5 in Gold

Here's a splendid chance for you to get \$5 Xmas money of your very own—money you don't have to get from the "folks" to buy them presents with. An opportunity for you to give mother, father or someone else a *real* Xmas surprise.

This is All You Have to Do

Ask your mother why she thinks Calumet Baking Powder is the finest baking powder she ever used. Then, when she tells you, just write in 50 words or less the reason "why mother thinks Calumet is the best." Sign your name and address and bring or mail to us.

The boy or girl who gives the best answer in 50 words or less—"why mother thinks Calumet is the best" will receive the \$5.00 cash prize.

These Are the ONLY Rules

Only boys and girls in or under the 8th Grade in any school are permitted to enter the Contest.

Contest closes Dec. 18th. Your answer must be in our office on or before that date. This Contest is open only to boys and girls whose mother has already used Calumet Baking Powder before this announcement appeared.

Try it. Win the prize. \$5 of your very own for Xmas.

By pulling off a spell of zero weather right in the midst of a coal strike Nature seemed to be expressing the highest confidence in our morale.

Nothing is more pathetic than the salaried man, whom experience has repeatedly shown that an increase of salary does him no good but who still clings to his outgrown hope.

Between the sugar shortage and the restrictions on electric current, even an earnest seeker after the sweetness and light can't get very far these days and nights.

—o—

Every newspaper man takes home a little copy paper now and then to write a few paragraphs on at home, but seldom gets to do it, on account of being unable to find any paper next day which is not covered with hieroglyphics and scrawled drawings by the kids, or with notations like this: "Get coffee and salt pork for beans; call the laundry; make up excuse from staying away from Smiths tonight; etc."

—o—

The Young Folks' Easy Reader

Once there were two youths, James and Henry. Henry was a good boy and expected when he grew up to become a missionary. But James was an out-and-out reprobate, whose ambition was to be a pirate or a village railway station agent. One Sunday morning Henry hid him to Sabbath school with a nickel in his pocket and a song in his heart. But James, with a bundle of Dead-wood Dicks under his coat and a plug of tobacco in his pouch, wended his way deep into the forest. A storm arose, and the lightning struck the church and killed poor Henry too dead to skin. But off in the woods where James was it did not even rain. And the young villain sat in the shade of a giant oak and read his debasing novels and chewed tobacco to his wretched heart's content, every now and then pausing to yell, in a defiant voice: "Darn! darn! darn!"

Moral: From this we should learn that you cannot always tell.

—o—

Equally Diaphanous

"Well suzz!" ejaculated Mrs. Wawhoo, in the midst of her perusal of the patent insides of the country paper. "It says here that an ordinary soap bubble is only one five-millionth of an inch thick. That's pretty thin, isn't it?"

"Eh-yop!" replied honest Farmer Wawhoo. "About as thin, I should say, as young Gabe Gawk's excuse that he wants to talk horse-swap with me, when he comes over to set up alongside of Hettie Jane."

—o—

A Probable Surprise

"A passel of us folks started out tuther night to give Jud Prodd and his wife a surprise party," related a resident of the Fiddle Creek, (Ark.) neighborhood. "Did you surprise 'em?" inquired an acquaintance from Straddle Ridge.

"I reckon so. Leastwise, when we busted into the house we found Mizus Prodd holding Jurd down on his back on the floor by means of his throat and thumping him on the head with a skillet, while the children hopped around and bet grains of popcorn on which'n would whipl. They're a proud family; Jurd has always made his brags that his Uncle Buck rid with Jesse James, and Mizus Prodd has long contended that she had ancestors. So it's more than likely that if they know'd we were coming they wouldn't have let us ketch 'em in no such fix."

—o—

Unprepared Again.

When the armistice was signed officials up at Washington said that this country was just beginning to get into the war, that much artillery and supplies had been prepared, and that in a few months we would have been sending over hundreds and even thousands of airplanes, and big guns, and munitions that could be used in our own artillery. Now that there is a possibility that we may have to intervene in Mexico, comes the announcement that we are not prepared—that we have no airplanes and not enough machine guns, nor soldiers, nor men to equip the ships. Looks like somebody lied.—Wellsville Globe.

JUST COMPLAINT

From Harper's Magazine.

A coal heaver's "feelings were hurt" by the unthoughtful actions of his children.

"Mary," expostulated this man to his wife, "don't I always tell you I won't have the children bringing in coal from the shed in my best hat?"

"Oh, why should you care?" demanded the wife. "You've spoiled the shape of the hat already, and what can a little extra coal dust do to harm it?"

"You don't see the point," protested the husband, with dignity. "I only wears that hat in the evenings; and, if, while I am out, I takes it off my head, it leaves a big black band 'round my forehead. What's the consequence? Why, I gets accused of washin' my face with my hat on, and it ain't nice, Mary; it ain't nice."

INFUSES SEMBLANCE OF STRENGTH IN STOCKS

New York, Dec. 11.—Settlement of the coal strike infused a semblance of strength in the stock market at the outset of today's operations, but this was speedily dissipated when foreign exchange, particularly the British rate, manifested more acute weakness. There was no actual development to explain the further alarming depreciation of international exchange other than reports on the exchange that the present session of congress probably would oppose the authorization of foreign credits or loans. The Mexican situation also assumed more delicate aspects. This accounting mainly for the general depression of active petroleum issues.

The money market held consistently to its recent rigid course, call loans opening at 7 per cent and advancing to ten per cent with the approach of the hour, but the large part of the day's negotiations were negotiated at the lower figure.

Stocks registered their minimum quotations in the later dealings. The general list notably motor oil and steel issues soon pointed in the reaction, the market closing in weakness and disorder. Sales amounted to 935,000 shares.

The action of the federal reserve bank in ordering another increase of interest and rediscount rates did not generally become known until along after the close of the stock market. All classes of bonds, domestic and foreign, were variably lower on larger and more diversified dealings. Total sales, (par value), aggregated \$27,650,000.

ANTI-H. C. L. NOTES
One way to knock the high cost of low living is to insist on an unreserved policy of—

Three feet of Piume macaroni to a yard.
Two and three-quarter per cent of holes in sweitzer cheese.
More snaps in ginger snaps.
Twelve buns to baker's dozen.
Twelve pork chops to a butcher's full jury.

Two pints to all quarts—not some quarts.
Enough beans for a quorum to every order of army fruit.
Canned tomato soup which will pass the color test.

Milk in which cream will form up on top where you can see.
Highly volatile gasoline which will vaporize without parboiling.

COTTON CROP IS RECORD BREAKER

Five and a Quarter Billion Pounds Worth Over \$1,500,000 G own This Year.

Washington, Dec. 11.—A cotton crop of more than five and a quarter billion pounds, worth more than \$1,500,000,000 to produce for line alone was grown this year. Final estimate to production made today by the department of agriculture, placed the crop at 11,030,000 equivalent 500 bales.

Much interest centered in the report, in view of the recent attack on the last estimate of 10,696,000 bales, made early in October as being too high. Congress ordered an extra condition report in November. O'Day's estimate exceeds the October estimate by 334,000 bales. The December estimate was not accepted as final production figures.

PRONOUNCE WEAKNESS DEVELOPS IN CORN
Chicago, Dec. 11.—Pronounced weakness developed in the corn market today chiefly as a result of big breaks in foreign exchange. The close was heavy, 1 7/8c to 3c net lower, with January 1.35 1/4 to 1.35 3/4, and May 1.32 to 1.32 1/4. Oats lost 1c to 1 1/2c and provisions 20 to 42c.

It took but little time for attention in the corn pit to focus on the extreme depression of sterling and francs. Besides the actual settlement of the coal strike brought with it a desire on the part of many holders to realize on their anticipations, especially as larger receipts and moderating temperatures promised to act as a weight on values.

Oats paralleled the action of corn. Most of the pressure came from liquidating sales. Talk of a poor outlook for exports more than counterbalanced in the provision market the fact that hog prices were higher. Discouragement about exports was ascribed to the collapse of exchange rates.

WILL HOLD HOME ECONOMICS INSTITUTE

Sessions Will Be Held as Announced—First Day's Program Announced.

The coal situation has been relieved just in time to make it possible to hold the Home Economics Institute, which, as previously announced, will be held at the Illinois Woman's College the first three days of next week. Although some of the trains have been taken off, there are still good connections in a large part of the county, and it is hoped that other trains will be put back on their regular schedule by the first of the week.

Many women feel that they cannot afford to miss these meetings even though it costs an effort to get to them. Some of the Domestic Science Clubs in the county will send representatives for each day's program, so that the reports can be given to the whole club and a benefit gained, even though a large majority of the club cannot attend every meeting. It is to be hoped that as many representatives as possible be sent to the meeting Tuesday afternoon, December 17, to hear Miss Juliet Lita Bane, who will talk on the organization of the Home Bureau. A temporary organization may be effected at that time. As many women as possible should hear of the scope of the work of the Home Bureau and of the great benefits to be gained for the women of the whole country who are interested in bettering their own home working conditions as well as the life of the communities in which they live. As has been announced, Miss Bane comes from the State Extension Department of the University of Illinois. The Home Economics Institute is very fortunate in securing Miss Bane as she has been instrumental in organizing many of the Home Bureaus in the state. At present there are seventeen counties in Illinois which have Home Bureaus, and several other counties are hoping to organize this year.

The first meeting will be held at 1:30 Monday afternoon in the cooking laboratory of the Woman's College. Those entering the front door will be shown the way to the laboratory. This room would have to be heated for the regular class work, so no extra fuel will be used by holding the meetings here. The program for the first afternoon is—

Welcome, by Dean Olive Austin
Cold Pack Canning of Fresh Meat, by Bertha M. Jones.
Home Making as a Profession, by Juliet Lita Bane.

AMERICAN LEGION TO BACK XMAS SEALS

Veterans of the world war evince a keen interest in the fight against tuberculosis—a personal problem with many of them, as shown by the military records.

Official support of the Red Cross Christmas seal campaign is announced by the American Legion, which adopted resolutions to that effect at the national convention at Minneapolis recently. The Pennsylvania convention passed similar resolutions in October, endorsing the campaign for more than \$6,500,000 by the sale of Red Cross Christmas seals, which began December 1 under the auspices of the National Tuberculosis Association.

In placing the American Legion on record as enlisting in the crusade against the White Plague, which claims 150,000 lives yearly, the sponsors of the resolution called attention to the fact that, according to draft figures, enough men to comprise three divisions were marked as unfit for military duty.

The resolutions read as follows: "Whereas, the fighting and working efficiency of the nation depends upon the public health; all organizations whose efforts minister to healthier manhood and womanhood deserve the support of the members of the American Legion.

"Especially mindful of the ravages of tuberculosis, as revealed not only by the military records, but by the statistics from civil life, we commend the work being done by the national, state and country anti-tuberculosis associations. We, therefore, commend to our membership and to the public the campaign to promote the sale of Red Cross seals and pledge our support to the efforts being made to eradicate the White Plague."

FILE CLAIMS

All persons having claims against Morgan county are requested to file them in this office before Saturday, Dec. 13th.

CHRISTMAS MAIL IS NOW GROWING HEAVY

Despite the fact that many mail trains have been taken off by reason of the coal famine, the mail at the Jacksonville post office continues to grow heavier. This is true of both the letter mail and second class and parcels post. The latter in particular will grow heavier from now on.

The carriers have been burdened with mail for some time and the recent cold weather has added to the hardships. Fortunately there has not been enough snow to interfere with the deliveries.

The Christmas shopping season is now well under way, and the buying despite the limited hours of the past week has been quite spirited.

LADIES ATTENTION

Anyone desiring beautiful hand-made articles suitable for Christmas or wedding gifts at reasonable prices are invited to call at 250 West College street and examine those Mrs. S. E. Tompkins now has on hand.

THE ARMSTRONG DRUG STORES

TO THE PUBLIC

If you should read a statement in this paper that a certain medicine would cure all the ills the human flesh is heir to, you would not believe it, and you would be right.

We do not claim that Nateki Blood Purifier is a cure all, but we do say, without fear of contradiction, that it will, if taken according to directions, relieve or cure 88 per cent of the ailments for which it is recommended.

We expect, from time to time, to print in the columns of this paper letters from people who have taken this medicine, and let you judge for yourself from what they say.

These letters are just as they were written or dictated by the writer, and are not dressed up to attract the eye. If you doubt the truth of any of the statements you may read in these letters, write to them and find out for yourself.

We guarantee it, and if you receive no benefit after taking three bottles, we will cheerfully refund your money.

Where Did She Learn The Cold-Pack Method?

To have green beans, for instance, ready to serve on the table in March and April, just as tender and appetizing as they were the previous July!

Successful Farming taught her how. Gave her full instructions—explained every step of the way to successful cold-packing. Meats of all kinds can be cold-packed just as successfully as vegetables. This entire subject is adequately covered in season in our Home Department.

This is not a cold-blooded, "make money on the farm" magazine. It includes and embraces every phase of farm life. Its endeavor is to better farm home life as well as farm crops.

Father likes it because it gives him practical crop "tips." Mother reads it because it shows her schemes and plans and methods that save her steps. It is the "clearing house" of money- and-labor-saving ideas for those who live in farm homes. For every reader of **Successful Farming** feels that he is part of a big family—and he (or she) is!

We want you to know us—and our paper. You will find it intensely interesting—and

helpful in a practical, everyday way. Every member of the family will find a multitude of helpful suggestions in every issue. We would like to have your name on our subscription list if you live on a farm or own or operate one. For convenience use the attached coupon.
